Acknowledgments

Agreements between the United States Atomic Energy Commission and the following organizations with regard to providing continuing services and specific literature coverage for *Nuclear Science Abstracts* are gratefully acknowledged:

American Institute of Physics; Atomic Energy of Canada Limited; Atomic Energy Research Establishment, United Kingdom; Aktiebolaget Atomenergi, Sweden; European Atomic Energy Community (EURATOM); Gmelin Institute, International Atomic Energy Agency; Japan Atomic Energy Bureau—Japan Atomic Energy Research Institute; Netherlands Patent Office; Reactor Centrum Nederland.

Communication concerning the editorial policy and content of *NSA* should be addressed to the Managing Editor, *Nuclear Science Abstracts*, AEC Division of Technical Information Extension, P. O. Box 62, Oak Ridge, Tennessee 37830.

Use of funds for printing this publication approved by the Director of the Bureau of the Budget, June 28, 1966.

NUCLEAR SCIENCE ABSTRACTS

A semimonthly publication of the USAEC Division of Technical Information, Edward J. Brunenkant, Director. Published by the USAEC Division of Technical Information Extension, Robert L. Shannon, Extension Manager.

Nuclear Science Abstracts provides the only comprehensive abstracting and indexing coverage of the international literature on nuclear science and technology. *NSA* covers scientific and technical reports of the U. S. Atomic Energy Commission and its contractors, those of other U. S. Government agencies, and those of other governments, universities, industrial, and research organizations. It also covers patents, books, and journal literature on a worldwide basis. A list of the journals scanned appears in Issues 1 and 13 of each volume. Nearly 400,000 abstracts have appeared in *NSA* through Volume 20. The subject matter covered in *NSA* is described in Issue 1 of each volume and in TID-4552, *Subject Scope of Nuclear Science Abstracts*. The latter is available free from the U. S. Atomic Energy Commission, Division of Technical Information Extension, P. O. Box 62, Oak Ridge, Tennessee 37830.

Abstracts are arranged according to subject categories which are defined in Issue 1 of each volume. If the language of the original item is not English, the language is indicated. Translations are not abstracted if an abstract of the original item has appeared in *NSA*.

AVAILABILITY OF PUBLICATIONS ABSTRACTED

The public availability of all U. S. Atomic Energy Commission reports is indicated in the report number indexes. The availability of other reports, when known, is also indicated. The availability of some unnumbered reports is given in the abstract.

Dissertations abstracted in *Dissertation Abstracts* and included in *NSA* are available from University Microfilms, Inc., 315 N. First Street, Ann Arbor, Michigan 48103.

Information on the availability of the published literature and unpublished conference papers abstracted in *NSA* may be obtained from the Division of Technical Information Extension, P. O. Box 62, Oak Ridge, Tennessee 37830.

HOW TO OBTAIN NUCLEAR SCIENCE ABSTRACTS

NSA is available to the general public on a subscription basis from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402, as follows:

For the 24 regular issues, $30.00 domestic, $37.00 foreign. A single issue costs $1.75, plus 25 percent for foreign mailing. Domestic rates apply to the United States, Canada, Mexico, and Central and South American countries except Argentina, Brazil, Guyana, French Guiana, Surinam, and British Honduras. Foreign rates apply to the countries excepted above and to all other countries throughout the world.

For the quarterly, semiannual, and annual indexes, $22.00 domestic, $25.00 foreign.

Multivolume subject and author indexes are available as follows:

Vols. 1-4 (1948-1950). Johnson Reprint Corporation, 111 Fifth Avenue, New York, N. Y. 10003, $30.00.

Vols. 5-10 (1951-1956). Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402, $5.25.

Vols. 11-15, Subjects. Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402, $19.00.

Vols. 11-15, Personal Authors. Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402, $14.25.

Vols. 11-15, Corporate Authors. Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402, $2.50.

Vols. 16-20. (To be issued in 1967.)

Cumulative Report Number Index, Vols. 1—15 Revised, is available from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402, $4.00.

Cumulative Report Number Index, Vols. 16—20, is available from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402, $4.25.

Annual indexes are available separately from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402, as follows:

Vol. 16, Subjects and Authors, $9.75.
Vol. 17, Subjects and Authors, $12.25.
Vol. 18, Subjects and Authors, $12.50.
Vol. 19, Subjects and Authors, $12.50.

Annual indexes for Vol. 20 were not issued since they are a part of the cumulation for Vols. 16–20.

NSA is available on an exchange basis to universities, research institutions, industrial firms, and publishers of scientific information. Inquiries should be directed to the U. S. Atomic Energy Commission, Division of Technical Information Extension, P. O. Box 62, Oak Ridge, Tennessee 37830.

Government agencies may obtain *NSA* free of charge.

INTRODUCTORY NOTE

Each entry after an author's name is the original or a shortened version of the title of the report or article, followed by the *NSA* volume and abstract number. Report numbers are given in parentheses.

The phrase "Progress report" is abbreviated as "Prog. rpt.," permitting a more rapid and complete alphabetical arrangement of the titles without changing the location of the progress report titles in relation to the other titles.

Because of problems involving the mechanical preparation of this index, all accent marks are omitted. The following changes in spelling have been introduced to reduce some of the confusion which might result from omitting the accents:

Germanic	ä	becomes	ae
Germanic	ö		oe
Germanic	ü		ue
Scandinavian	ø		oe
